

ASSUMPTA TECHNICAL HIGH SCHOOL

Sta. Monica, San Simon, Pampanga

School Year 2022- 2023

Circular Letter #3, s. 2022

September 14, 2022

Dear Parents/Guardians,

May the Feast of the Exaltation of the Holy Cross today remind us that God's love always prevails no matter what suffering we experience at present. Let us multiply this love to bring hope to many.

Kumusta pu?

The call to live the spirit of Synodality continuously moves the members of the school community to listen to one another as we embrace the newness in the conduct of in-person education, and to discern for what will be best for the learners and the teachers who are both important in the teaching-learning process.

With the implementation of the ATHS RealFlex Learning Modality, the school is grateful for the presence of the learners in the school which inspires and strengthens us amidst the challenges of the limited face to face learning. Their being in the school also gives us more opportunities to accompany them in handling varied issues in their development, thus, helping them in their character formation.

For four weeks of having double shift classes, we have indeed recognized the benefits of the learners' return to school. However, with the advantages are also challenges that must be given serious attention. And so with the approval of the Department of Education and in consultation with the PTA Officers, we would like to inform you that Assumpta Technical High School will adopt a blended learning modality with single shift classes starting on September 26, 2022. This is to ensure that all learners receive the quality education that they deserve and that teachers are given considerable time to rest in between classes for them to effectively deliver their lessons to all sections assigned to them.

Below are other factors that were considered in the modification of the school's learning modality:

1. ATHS is a School Safety Assessment Tool (SSAT) Compliant Institution;
2. in preparation for the transition from distance to in-person learning, ATHS has conducted limited face to face in the SY 2021- 2022 and an extensive implementation of this in the current school year;
3. no COVID-19 case has been reported since the start of the school year. Let us pray that ATHS will remain a COVID free school; and
4. each classroom has an area of 63 square meters where each learner can occupy more than one square meter.

AT THE BACK

In preparation for the adjustment in the learning modality, the following actions were/ will be undertaken:

1. Meeting with the PTA Officers
2. Release of a Circular Letter Informing all Parents about the Adjustment in the Learning Modality
3. Informing the DepEd Division Office and the Regional Office about the Blended Learning Modality with Single Shift Classes
4. Meeting with the Service Drivers
5. Departmental Preparations
6. Orientation to Learners
7. Strengthening Minimum Health Protocols

Below is the new class schedule that will take effect starting on September 26, 2022. The detailed schedule of the learners will be given to them next week.
